# Blow Molded Products

Rigid packaging selection at Hedwin means variety and versatility!

## Hedwin versatility means blow molded containers that can feature these value-added extras:

- Available with post-molding barrier treatments for reduced oxygen and solvent permeation. Broadens range of product compatibility.
- Clean room production to meet specialized client requirements.
- Embossed messaging.
- Broad range of custom colors, closures, handle options, internally threaded necks, multiple openings, and multiple chambers.

## Hedwin also maintains core competencies in injection molding:

- 33-300 ton presses, hot and cold runner systems, and unscrewing molds.
- Precision injection molded parts with tolerances tighter than SPI standards.
- Hedwin-designed and produced injection molded parts as either stand-alone solutions or as part of multi-component design projects.
- Injection molded parts assembly experience.

## More value-added extras with Hedwin:

- Total Quality products and services at competitive prices.
- Each container backed by Hedwin performance packaging expertise and Total Quality commitment.
- Complimentary use of Hedwin DOT Third Party Test Lab for product development, regulatory compliance, and compatibility.
- Move your product from your facility to the marketplace with safe, easy, and precise shipping and packaging procedures supplied by Hedwin's Technical Services support staff.
- Computer-optimized packaging/shipping/storage scenarios help you and your staff choose optimum layouts that maximize safety, productivity, and profitability for your organization.
- Complimentary hands-on training for your personnel in proper closure procedures and Hedwin expertise in the safe, fast, and accurate filling of your container of choice.
- Advanced Quality Planning: Your order shipped to you the right way, first time, every time.

## Hedwin OnePoint™

### Design without limits!

A custom design partnership with Hedwin brings:

- Creation of unique packaging identity in the marketplace.
- Facilitate start to finish packaging solutions.
- Fully integrate container with surrounding equipment/machinery.
- Meet the diverse needs of organization personnel: Package Engineering; Sales and Marketing; Procurement and Management.

Hedwin is certified to ISO 9001 by SGS.
